

Guidelines for Poster Session Presentations

You are welcome to present your valuable research results during the EMAC Regional Conference 2022. Please read the guidelines carefully and prepare your poster according to them.

Your poster should be no larger than A0 format (841 x 1189 mm), one sheet or as a series of slides, aligned in portrait mode.

The Poster Session attendees will stroll by looking for topics of interest. Presenters need to attract attention with their topic and a visually interesting presentation. The goal is to encourage informed discussion about your research. The text fonts used in the poster should be large enough to read the text from a distance. It is recommended to use large-size titles, headings, keywords, the most relevant sentences and illustrations. It is also important to structure your poster into parts (try to avoid too many parts and details) that logically lead the viewer and allow understanding of your idea and main results. You will be able to explain more details during the one-to-one discussion with those interested in your poster. It may also be useful to have printed handouts of your work for conference participants to take away.

Presenters are requested to be present beside their posters during all the Poster Session time. You have to hang your poster approximately one hour before the Poster Session starts and remove your poster after the Poster Session ends. If you need any assistance, don't hesitate to get in touch with agne.gadeikiene@ktu.lt.

Support:

Although we will provide you with the means for hanging your poster, it is recommended that you bring your materials as a backup.

You can bring your printed poster with you or print it in Kaunas. If you decide to print the poster in Kaunas, there are two options you can choose:

Option 1. You can send your poster one week before the conference (no later than September 14, 2022) to agne.gadeikiene@ktu.lt, and we will arrange the poster printing at KTU Publishing House "Technologija" **free of charge**.

Requirements for the poster size and arrangement:

The file must be PDF, portrait orientation. Please leave a bleed of 3 mm or move the text away from the border.

Paper sizes:

A0 format – 841 x 1189 mm

A1 format – 594 x 841 mm

Option 2. You can print the poster in Copy1, located in the central area of Kaunas, Kęstučio st. 52. The price depends on the chosen paper and varies from 15 to 26 Euros. We recommend printing it in advance because it requires time (approximately 30 minutes).

Please be aware that there will not be a possibility to print your poster at the Conference venue during the conference days!

Looking forward to meeting you at the EMAC Regional Conference 2022!
